Career Objective

Enthusiastic and results-oriented Computer Engineering graduate with a strong foundation in Core Java, Object-Oriented Programming (OOP), and data structures. Currently undergoing intensive Java Full Stack Development training at Tata Strive, with hands-on experience in building scalable applications using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript. Seeking a challenging role to leverage my skills in developing robust solutions, collaborating in a team environment, and continuously learning to contribute effectively as a Full Stack Developer.

Education

B. Tech in Computer Engineering

2021 - 2025

Presidency University, Bengaluru, India
CGPA: 6.76

Technical Skills

Languages: Java, HTML, CSS, JavaScript

Frameworks: React.js, SpringBoot, Hibernate, Bootstrap

Databases: MySQL, PostgreSQL, SQLite

Tools: VSCode, IntelliJ, Eclipse IDE, Android Studio, Git, GitHub, XAMPP

Concepts: Object-Oriented Programming (OOP), Data Structures, Agile Methodologies, API Integration

Work Experience

Front-End Development Intern | Bharat Electronics Limited (BEL)

March 2025 - April 2025

- Built dashboards using HTML, CSS, and JavaScript to efficiently manage employee data (salary, feedback).
- Collaborated with the backend team to integrate APIs, improving the usability and accessibility of UI components.
- Designed user-friendly UI components for efficient interaction and data visualization.

Projects

Personal Health Application

03/2025 - 05/2025

- Led a five-member team to build a comprehensive health app, offering real-time analytics and personalized recommendations.
- Designed and implemented an interactive, intuitive UI simulating real-world deployment for smooth navigation.
- Created specialized features for women's health, including a period prediction tool, to enhance usability and personalized care.

Tourism Mobile App

01/2024 - 03/2025

- Led a four-member team to develop a mobile-first tourism application using Java, Android Studio, and MySQL.
- Applied user-centric design principles to enhance app engagement and usability.
- Integrated a MySQL database for structured data storage, ensuring smooth user interaction and data management.

Java-based Desktop Quiz App

- Developed a desktop quiz application in Core Java, implementing Object-Oriented Programming (OOP) principles.
- Used XAMPP and MySQL for robust database management, ensuring smooth quiz data storage and retrieval.

Certifications & Training

Java Full Stack (Tata Strive)

05/2025-09/2025

- Acquired intensive training on Core Java, Spring Boot, Hibernate, SQL, and Frontend (React/HTML/CSS/JS) with hands-on projects.

BEL

03/2025

- Built dashboards with HTML, CSS, and JavaScript to manage employee data like salary and feedback efficiently.

Codecademy

06/2025-09/2025

- Java, Spring, React.js

Extracurricular Activities

- ROTARACT CLUB:** Actively participated in organizing events and workshops, enhancing event management and networking skills.
- Collaborated in community service initiatives.
